HILTON HOTELS PARTNERS WITH PET SHELTERS ACROSS AMERICA

To build on its recently announced Hilton Pet Friendly program, Hilton Hotels has partnered with Pet Shelters Across America (PSAA). Hilton will donate \$500,000 over three years to support PSAA's more than 70 member shelter locations across the U.S. In addition, various Hiltons around the country will donate used sheets and towels to PSAA members addressing one of the most common needs of pet shelters.

"Hilton strongly believes in the importance of being good partners in the communities in which we live, work and play," said Jeff Diskin, senior vice president, brand management, Hilton Hotels & Resorts. "When we created Hilton's Pet Friendly program we recognized the importance of aligning ourselves with an organization that provides shelter to pets that don't have the luxury of a caring owner or a warm bed. Through our sponsorship of PSAA we are helping provide shelter to pets in need and in turn learning how to be better hosts to our furry, four- legged hotel guests."

In addition to supporting PSAA's myriad educational programs, Hilton's sponsorship will also help support PSAA's current efforts in promoting animal adoptions from humane organizations; offering subsidized spay and neuter programs; helping to microchip animals so they can be reunited with their owners in the event they become lost; and encouraging best practices in humane and animal health ecological programs.

To learn more about Hilton's pet policy, guests can visit www.hilton.com/pets or call 1-800-Hiltons to reserve a pet friendly room.
